INSTALLATION GUIDE

REX LIGHTING

2009-2014 **Ford F-150 Tail Lights**

Tool required :

- **8mm socket**
- **Ratchet**

⚠️ If you are unfamiliar with your vehicle or inexperienced with aftermarket upgrades, professional installation is highly recommended.

Step 1
Open the tailgate, and remove the 8mm bolts holding the stock tail light in place – there should be 2 bolts.

Step 2
Unseat the stock tail light.

Step 3
Disconnect the brake light and turn signal wiring harnesses. Next, remove the reverse light bulb socket.

Step 4
Connect the stock wiring harness to the REX tail light, including reinstalling the reverse light bulb socket.
Step 5
Seat the REX tail light in your vehicle.

Step 6
Secure the REX tail light by reinstalling the 8mm bolts — there should be 2 bolts.

Step 7
Your REX tail lights are ready for the road. Enjoy!
